

The JAAGORON Project Kicks Off with a Staff Orientation Program

March 9–10, 2026

BYLC organized a two-day staff orientation program on the JAAGORON project in Dhaka, bringing together participants from BYLC and partner organizations including Young Power in Social Action (YPSA) and Agrogoti Sangstha. The orientation included discussions on the project's goals, activities, targets, management mechanisms, agreement clauses, monitoring and evaluation processes, and communication approaches. Participants also engaged in group work to develop the project work plan to support smooth implementation.

Implemented across multiple locations in Bangladesh, the JAAGORON project aims to transform youth into leaders for community empowerment by strengthening civic awareness, leadership, and active engagement in inclusive and rights-based local development.
