

Over 200 Young Leaders Graduate from BBLTJ Programs Across Bangladesh

January 20–February 15, 2026

BYLC successfully completed multiple batches of the Building Bridges through Leadership Training Junior (BBLTJ) program in different regions, bringing together more than 200 students who graduated from the leadership training. Participants took part in interactive class activities, developing key skills such as critical thinking and teamwork. Through their Leadership in Action (LIA) projects, students addressed issues such as access to education, climate change, women's empowerment, disregard for community or personal spaces, and health and hygiene. These projects collectively served thousands of beneficiaries while students contributed hundreds of hours of service.
